WHAT IS P.C.E.R., CSE PCER, ECOSYSTEM HELLAS, ECOEN and ECO-EARTH

June 15, 1979: A group of scientists concerned about the problems that were created by rapid and unplanned development of the country so they decided to establish the first independent, dynamic social organization, giving it the name P.C.E.R. (PANHELLENIC CENTER OF ENVIRONMENTAL RESEARCHES).

After 46 years this institution deemed worthy from its efforts for a better quality of life and has created the prerequisites for the political leaders to change their way of thinking and the way they handle the ecological problems.

P.C.E.R., **for 46 years**, is the only organization producing its own raw data to juxtapose disguised data of each government party machine.

P.C.E.R. during this 46 years created four more organizations, the Center of Scientific Education P.C.E.R. (CSE PCER), the ECOSYSTEM HELLAS.

CSE. PCER forms and has as aim the education policy of PCER and ECOSYSTEM HELLAS the environmental policy of PCER, charged with the laboratory researches in all Greece. The organization OIKOEN forms the energy policy and the organization ECO-EARTH the rural policy.

PCER, CSE PCER, ECOSYSTEM HELLAS, ECOEN and ECO-EARTH for 43 years are the unique organizations who product their primary data to contrast against the camouflaged of any governmental party machine.

P.C.E.R., CSE, ECOSYSTEM HELLAS, ECOEN and ECO-EARTH **are the organizations that followed through and inflicted** the observation of the word "development" and from the point of view called "environmental impact".

P.C.E.R., CSE, ECOSYSTEM HELLAS, ECOEN and ECO-EARTH **are the organizations that managed to break the status quo and give a new complexion to the term "quality of life".**

Of course, there is still a long way for the achievement of the goals that have been set from the beginning and during the forty years course. Of course, the faces change, but the institution of **P.C.E.R, CSE, ECOSYSTEM HELLAS ECOEN and ECO- EARTH** with its stable and unshakeable political view, remained and will remain a beacon of hope for the thousands of its supporters.

PRESENTATION

P.C.E.R, CSE, ECOSYSTEM HELLAS, ECOEN and ECO-EARTH are non-profit organizations of the private sector and their major aim is the improvement of the quality of life and environment and the consumer's protection.

They have organized scientific laboratories and groups of experts and researchers for the study of environmental problems and in order to conduct studies for integrated and feasible solutions to environmental issues.

Moreover, they make efforts to attain the public opinion's interest concerning environmental issues via educational seminars, instruction campaigns, newspapers, printed matter and TV and radio broadcasts.

Fields of interest of **P.C.E.R., CSE, ECOSYSTEM HELLAS, ECOEN and ECO-EARTH** cover a broad range of activities:

- Measurements of pollution - pollution in the sea, air and the land, in drinking water and food.
- Impacts of pollution on ecosystems and to public health
- Quality of work environment.
- Management and protection of forests, habitats and endangered species.

- Application of alternative energy sources.
- Management of waste and toxic substances.
- Environmental studies
- Educational programs in the fields of environment, energy and food management.
- Control and disposal of ecological agricultural products

During its long-lasting trail, **P.C.E.R.**, **CSE**, **ECOSYSTEM HELLAS**, **ECOEN** and **ECO-EARTH** have developed international relations with institutes and organizations such as WWF, EPA, GSF, NAUMANN, BBC. PCER is also a member of UNEP, ECOROPA, IFOAM and IUCN for a better management and protection of the environment.

The persistent and effective presence of P.C.E.R., CSE and ECOSYSTEM HELLAS in diverse environmental issues is continually gaining ground at national level and have therefore to be regarded as the most serious and independent operators in the environmental sector.

● **EDUCATIONAL PROGRAMS** ●

Since 1988, **P.C.E.R** has completed one hundred thirty five (135) educational programs funded at a percentage of 75% from the E.U and of 25% from the **P.C.E.R** These programs offered theoretical instruction in issues concerning the protection of the environment and of the consumer (solid and liquid waste management, forest protection, recycling, food technology, protection methods for the consumer) and practical application concerning the above mentioned theoretical courses.

Moreover **P.C.E.R** carried-out a six-month instruction program from the Mediterranean Integrated Programs for the forest protection in the territories of Western Greece and of Peloponnese. This program has instructed 500 individuals for two and a half months. These 500 trainees gained practical training in the sector of fire and forest protection in general. The same program was held by **P.C.E.R** in the regions of Thessalian and Crete.
